

## Show Time

Capital & Financial Club  
November 17, 2003, 5:30-9:00pm  
Cambridge Marriott Hotel and MIT E25/117

Do you want to get in the head of an investor? Do you want to figure out what will make an investor invest? Do you want to hear live interaction between promising startups and veteran investors? OCEAN Capital & Financial Club organized this event to address these questions. We invited three start-up companies (Amplo System, Inc., Axel Photonics Inc., and BioDefense Corp.) to present their business plans in front of four local Venture Capitalists (Battery Ventures, Brook Venture, Long River Ventures, Zero Stage Capital). The VCs commented on the presentations and the gaps they may have to fill, and how interested potential investors may become. CFC Chairman Tony Zhang moderated this event. A reception and networking session was held at the nearby Marriott Hotel.
